## Grantham Energy Committee Minutes December 11, 2019

The meeting was called to order at 5:00 pm on Monday December 11 by Co-Chair Jenna Chenevert. Also in attendance were Paula Bresnick, Don Fitzpatrick, and Mike Salo. Visiting was Kevin Davis.

### **Old Business:**

Jenna reported that she and GEC member Susan Goodwin attended the Local Energy Solutions conference in November. There they reported on the activities of the GEC since its inception, and what types of projects we are contemplating for the future. From discussions with the energy committee members of various towns, it appears that they face the same challenges that we do in identifying projects.

Weatherization program update. The GEC has been asked to participate in the Weatherization Project to be held this spring by the following towns. New London, Andover, Sunapee, Newbury, and Warner. The plan is to include:

1. Mini weatherization program featuring Eversource rebates for materials and labor
2. A report on climate change by John Ruby
3. Show a film on climate change
4. Draft a warrant article for all towns to reduce single use plastic bags and containers.

There will be an organizational meeting December 12 at 6:30 at the New London library.

EV chargers update. The state is moving ahead with locating and installing EV charging stations as a result of the VW settlement.
